MARKETER PORTFOLIO PRESENTATION 2026

KIRTI RANA

DIGITAL MARKETING & DATA ANALYTICS

PRESENTED BY KIRTI RANA

ABOUT ME

MARKETER PORTFOLIO

2026

KIRTI RANA

"Hello, I'm Kirti Rana. With a strong background in digital marketing, including SEO, social media marketing, content marketing, Google Ads, and performance marketing, I am passionate about creating strategies that help brands grow and connect with the right audience. I have hands-on experience working on digital marketing projects, improving online visibility, creating engaging content, and using data to understand and optimize campaign performance.

Alongside my marketing experience, I am developing my skills in data analytics, including SQL, Python, Excel, Power BI, and Tableau. This combination of marketing and analytical skills allows me to look at both the creative and data-driven sides of a business.

I am a curious, creative, and hardworking professional who enjoys learning new things and taking on new challenges. I look forward to using my skills, contributing to meaningful projects, and growing with a team where I can create measurable results.

WORK EXPERIENCE

YAYATH BUILDTECH

SMM

Managed social media activities to build brand visibility and audience engagement. Created content, planned posts, managed social media platforms, and supported digital marketing initiatives to strengthen the brand's online presence.

QUICKDAAK

SEO,SMM

Worked on SEO and social media activities to improve online visibility and engagement. Supported keyword research, content optimization, social media management, and digital campaigns to help increase website reach and brand awareness.

PERSONAL SKILLS

DIGITAL MARKETER 95%

I combine creativity with data-driven marketing to build a strong digital presence. My skills include SEO, social media marketing, Google & Meta Ads, content marketing, WordPress, website optimisation, and performance marketing. I focus on creating strategies that improve visibility, engagement, and business growth.

DATA ANALYTICS 75%

I use data to understand trends, measure performance, and support better business decisions. I work with SQL, Python, Excel, Power BI, and Tableau for data cleaning, analysis, visualisation, dashboard creation, and extracting meaningful insights from data.
